**Subject: Village Thrift Shop Grant Application Process**

Dear past grant award winners,

The Village Thrift Shop board met virtually on Wednesday to discuss how we could best help with our hard earned money in the midst of the pandemic.

One idea that was well received was this: If your organization has an immediate need -lack of food, lack of diapers, money for gas to deliver meals, etc. Please write "emergency need" on the top of the application form and return it as quickly as possible in the grey bin outside the Village Thrift Shop front door. This bin is checked daily at 4 pm. Emergency requests will be looked at straight away--and acted on quickly.

If you need an application, there are applications in a brown box outside the front door of Village Thrift Shop as well as on our website.

If your application is requesting funds for another project conceived before the pandemic began and now you also have an immediate need....simply highlight the details of the grant that are the emergency. When the pandemic is over, we will address the other desired project.

As always, you may use the email listed on the website for questions. Someone will contact you via email.

Sincerely,

Peri Ann Query  
Grant committee
